

### DESCRIPTION

Offers safety and durability levels for high-risk processes and harsh environments.

A heavier gauge system that provides complete and robust protection.

### MATERIALS

WIRE	Gauge 10 Galvanized 49.12 g/m <sup>2</sup> (G-30)
POST	2 1/2"x14 gauge steel tube Galvanized G-60
FRAME	1"x14 gauge steel tube
FASTENING	8 x 3/16" angles per post with 5/16" screws
BASE	Gauge 10 4 x 3/8" toggle anchors and 2 x 5/16" hex screws

### MODULE WIDTH

200mm | 500mm | 800mm | 1000mm | 1200mm | 1500mm

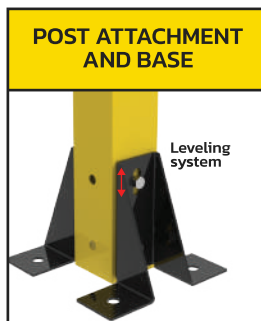

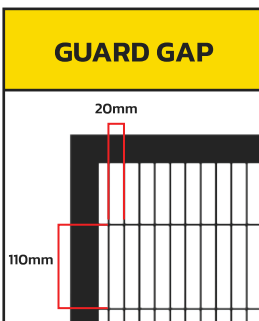

### GUARD WEIGHT RANGE

5.5 kg – 27 kg\*

### MINIMUM HORIZONTAL DISTANCE

12 cm ISO 13857

\*Weight varies according to panel width and height.

**2100  
JOULES**

**EASY  
ASSEMBLY**

**ELECTROSTATIC  
PAINT**

IN COMPLIANCE WITH SAFETY STANDARDS

ISO 13857

ISO 14120
